Action Plan and suggestions:

1. Suggestions to the KNRUHS to introduce credit points to value added courses so that it would help the students when they go for higher education.
2. Include courses like effective communication, personality development, dental practice management, health informatics, forensic odontology in curriculum.
3. At the institutional level to focus on student-oriented learning, mentor-mentee programs. To organize meetings on career guidance, health administration.
4. To upgrade to the latest research, techniques and technologies which provide an evidence-based knowledge to the students and contribute to the continuous improvement of dental care quality and patient outcome.
5. To improve and strive for overall development to make an individual self-motivated
6. To encourage research activities among UG and PG students and also publish the research in reputed journal.
7. Career planning skills should be offered at the end of the curriculum, so that it offers a real, meaningful, personally important goal to the students.
8. Conferences at UG level provide a perfect opportunity to exchange their knowledge, enhance students professional profile and stay engaged with the latest developments.
