Introduction

The institution engages LMS for providing the e-learning platform to the students and faculty. The features of LMS are best exploited for making it as a major teaching-learning tool to disseminate knowledge to our students. Various steps are taken by the institute to transition from conventional/traditional classroom into an e-learning environment. This is achieved by regularly organizing webinars on zoom, goggle meet and encouraging them to utilize e-learning resources by providing Wi-Fi facility, ICT enabled e-classroom.

LMS: Faculty uploads the lecture material into google drive and provides students link to these documents through mail or WhatsApp. Audio visual presentations, Internet facility is provided to all the departments and faculty is encouraged to use and download latest information so as to use ICT enabled teaching practices by all the faculty members. Furthermore, any other information will be sent to parents also if required through the bulk SMS (SMS update for daily attendance)

Lecture Halls

- All our lecture halls are provided with a desktop, computer, wireless internet, overhead projector and collar mikes with speakers.
- The presentation is projected onto a large white screen

Student Facilities

Student have access to Library to access various books, journals and also provides access to e-journals.

IT Department

- Our faculties and students are well versed in handling the IT gadgets which empowers them to keep pace with the latest technological advancements in dental education.
- A dedicated Information Technology Department capable of providing both hardware and software support is available at all times.
- This department gives required training to the faculties in the usage of basic Microsoft tools to enhance the delivery of lectures.

IT Devices

- There are also desktop computers available in all departments of the college with high speed internet connection.
- Any academic related work can be carried out with the help of the IT enabled facilities.
- The computers are fitted with inter-linked internal storage drives which enable access of the data/information stored in one place in any other part of the campus.
- All the systems are also equipped with antivirus and web page blocking softwares which prevent access into non-academic websites.

Technological Innovations

- Our institution also possesses latest technological innovations which assist in the diagnosis of dental conditions like Radio visuography, Digital Ortho pantomograph, cone bean computer tomography, CAD-CAM and digital microscope, Dolphin Software. These computer assisted aids helps in instant diagnosis and effective treatment planning for our patients by the students and faculty
- All the radiographs are instantly uploaded into the server and they can be accessed in any department through the login portal of the X-ray server.
