

SVS INSTITUTE OF DENTAL SCIENCES

Appannapally, Mahabubnagar - 509 001, TS, INDIA.

Ph : 08542-231212, 227952, Fax : 231222 E-mail : svside_svsmblr@yahoo.co.in

SVSIDS has immensely prioritized the diligent practice of Continuous Internal Assessment to improve the examination system.

- We conduct multiple choice questions as a part of internal assessments and evidence based Critical Appraisal to foster more intricate understanding of the subject in the undergraduate dental curriculum. This helps them achieve higher scores in post graduate competitive exams.
- We conduct Viva-voce to help the students to better express themselves and showcase their understanding and expertise in handling complex situations proposed during their interaction with the examiners.
- Case based learning modules introduced in the health sciences examination widened the thinking of the students and increased their confidence in viva translating into high scores.
- Academic progress and achievements by the student will be calibrated, graded and endorsed by Formative assessment.
- Both formative and summative assessment will be taken into consideration to ensure the outcome parameters are more holistic.
- Academic requirements ranging from attendance, grading, formative assessment, tests, calculation of internal assessment marks will be critically done.
- Periodic assessment of students by the staff are done to further empower them in appraising their performance and becoming better.
